**"That beautiful nursery
you see from Highway 7"**

Phone: HOpkins 6383
Highway No. 7
HOPKINS, MINNESOTA

JUDGE US BY THE ATTRACTIVE APPEARANCE OF OUR OWN NURSERY

HOMEDALE NURSERY is the one you see on the south side of the road as you travel along Highway #7 between Hopkins and St. Louis Park. The picture on the cover of this booklet will no doubt recall it to your memory if you have travelled that way. Perhaps you have noticed it at night with the office and its landscaping floodlighted.

HOMEDALE has one of the most complete lines of nursery stock in Minnesota, at prices that are fair and reasonable. A complete Garden Store on our grounds adds to the desirability of getting the Homedale shopping habit. Stop in the next time you go by and look over our many acres of fine trees, shrubs, evergreens and fruits. Pick out what you like. We'll dig it, ball it expertly and deliver. Our evergreen stock is specially choice, including these varieties: Dundee Juniper, Silver Cedar, Black Hills and Colorado Spruce, Pfitzer and Savin Juniper, Arborvitae, and Mugho Pine.

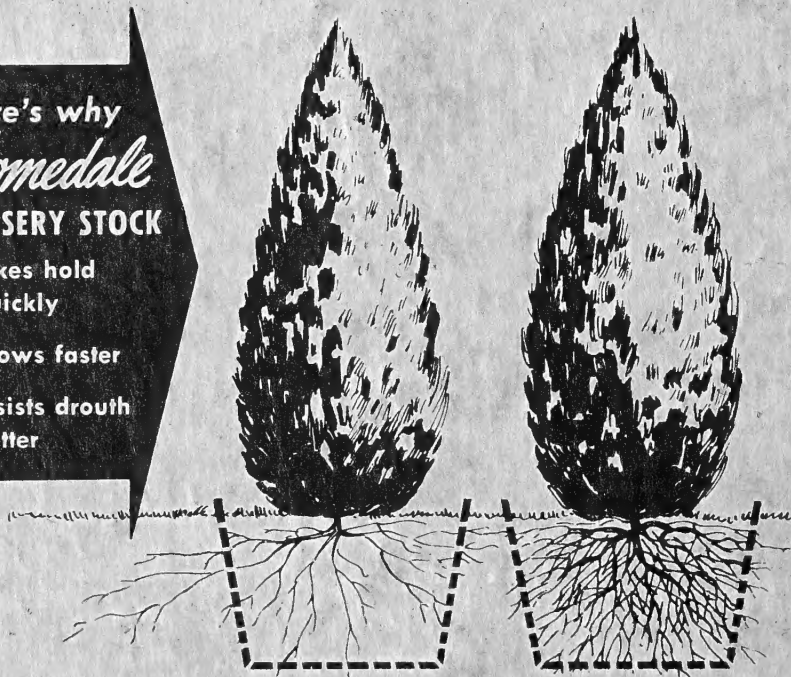

WHY HOMEDALE NURSERY STOCK GROWS BETTER

All our emphasis is placed on furnishing stock that will grow. Trees you buy from us have been transplanted from 3 to 6 times in the nursery while being grown to size. Each time, the tips of widespreading roots have been cut off, thus stimulating more growth near the trunk. The result is a compact, dense, fibrous mass of roots, most of which are included with the tree when dug.

On the other hand, nursery stock which you may buy from distant nurseries represented by travelling salesmen is apt to be untransplanted, or transplanted an insufficient number of times to insure good growth when planted in your yard. Untransplanted stock develops a widespreading root system. When it is dug and balled, most of the root system is cut off. Such trees suffer severe setbacks when planted, develop slowly, often do not survive. The beauty of your whole landscape planting may be delayed for years.

Here's why *Homedale* NURSERY STOCK

- takes hold quickly
- grows faster
- resists drouth better

Untransplanted

Homedale

WE CAN DO THESE THINGS FOR YOU:

If you will bring us a diagram of your home grounds and a picture of the house, we will help you plan what to use in the way of shrubs, trees, and evergreens to get the best possible result for the smallest expenditure. There is no charge and no obligation for this service. If you are located within a reasonable distance from our nursery, we will send someone to your home to look over the grounds and help you plan your planting. If you live out of town, we would have to make a small charge for this service.

If you already know what you want to buy, just write us a letter listing the items you want, with sizes specified. We will pack properly and ship via the most appropriate method or the method you specify. At least a 25 per cent deposit is required with order and the balance can be mailed prior to shipment or paid C.O.D. Order early to insure delivery when you want it. Planting instructions will be furnished with each order. Any order of \$2.50 or more will be delivered free of charge in the Twin Cities or suburbs.

You pick out what you want. We'll dig it, ball the roots expertly and deliver it if you live within the Twin Cities or suburbs.

OUR FAIR GUARANTEE

There are hazards to plants over which the nurseryman has no control, such as bad weather, poor drainage, insects and fungus pests, and lack of care on the part of the purchaser. However, we will assume half of the risk and replace any tree, shrub or evergreen which fails to grow through the first growing season at $\frac{1}{2}$ the purchase price.

Prices in this catalog are subject to change without notice. We have a good supply of all items listed in this catalog, but not being able to predict the demand, we reserve the right to fill orders partially should we be sold out on any item and return the money for which we were not able to supply.

There are countless other items which we handle that we do not list here. If you do not find your wants listed, please stop in, call or write and we will do our best to supply your requirements.

R. H. Bakovicsen K. L. Zakovicsen

EVERGREENS for year 'round beauty

In this part of the country, where there are so many months when blossoming and leaf-bearing shrubs and trees are bare, the evergreen gives us a much-needed medium for making our homes, grounds and public areas beautiful even in winter. Evergreens properly placed to bring out the best architectural qualities of your home and mixed with a few well-chosen blossoming and foliageing shrubs, will do much to give your home that loved, cared for, and finished look. They are the aristocrats of the plant world.

Most evergreens should be trimmed to maintain their usefulness in the planting.

American Arborvitae--a tall-growing evergreen with flat needles and branches, bright green in color and soft in appearance. Grows wider than the pyramidal arborvitae.

24-30"	\$ 3.50
30-36"	4.50
3-4'	7.50
4-5'	12.00

Arborvitae, American Globe--similar to the American but selected for its round shape and good green color. Can be trimmed to maintain globe shape.

18-24"	\$ 4.50
24-30"	5.50

Arborvitae, pyramidal--grows tall and has the same color and texture as the American but grows much narrower. Used extensively on each side of a step or in formal plantings.

24-30"	\$ 4.50
30-36"	6.50
3-4'	9.00
4-5'	14.00

Arborvitae, Siberian--another arborvitae with a tendency to grow in a globe shape and is more dwarf in nature. Can be controlled by trimming.

15-18"	\$ 5.00
18-24"	6.50
24-30"	8.50

Fir, Balsam--similar to the Douglas but more green in color. Are good in partial shade.

3-4'	\$10.00
4-5'	15.00
5-6'	20.00

Fir, Douglas--a tall-growing evergreen with needles and habit of growth similar to the spruce. Good in partial shade. Slightly tinged with lavender.

3-4'	\$10.00
4-5'	15.00
5-6'	20.00

THE TALL AND NARROW GROWING JUNIPERS

Dundee Juniper--a very hardy grafted evergreen noted for its long life of usefulness and its steely blue-green color turning slightly plum colored in fall.

24-30"	\$ 7.75	3½-4'	\$13.00
30-36"	9.00	4-5'	16.00
3-3½'	11.50		

Silver Cedar--a silver colored juniper grafted for its beautiful silver sheen and upright shape.

(Prices same as Dundee)

Scopolorum Juniper--similar to the Grafted Silver Cedar, but more green in color.

24-30"	\$ 5.00	3-4'	\$ 9.00
30-36"	6.00	4-5'	12.00

Red Cedar--this juniper is a very extensively used evergreen in Minnesota. A native tree with dark blue green color, turning slightly purplish in the fall.

30-36"	\$ 6.00	3-4'	\$ 9.00
4-5'	12.00		

THE LOW SPREADING JUNIPER

These evergreens hug the ground growing from 1 to 2 feet high and spreading to 3 and 4 feet. They are fine for group plantings with other taller evergreens or shrubs, as border or under windows.

15-18"	\$ 5.50	18-24"	\$ 7.00
24-30"	8.50		

Savin--the greenest of the spreaders and grows a little more upright than the others.

Pfitzer--silvery green and has a tendency to grow more horizontal.

Andorra--very prostrate and slightly tinged with lavender.

Canadian--green in color and a good evergreen for partial shade.

Golden Canadian--similar to Canadian, but decided gold green color.

THE PINES

Austrian Pine--a tall growing long needled evergreen requiring a space 15 feet in diameter. A very attractive evergreen with good color and much appeal in the landscape planting.
 2½-3' \$ 7.00 3-4' \$ 9.00

Mugho Pine--a dwarf with long needles and dark rich green color. Grows to about 3 feet in height and spreads wider.
 18-24" \$ 7.75 24-30" \$ 9.50

THE SPRUCES

Three of the spruces are good in this area and all three grow tall (25 to 30 feet) and about 12 feet wide. They are very hardy and dependable as well as useful in the home planting. Their beauty and grace enjoy unanimous approval.

Colorado Blue Spruce--silvery blue in color with good shape and a sturdy look about the tree that makes it one of the most beautiful and popular evergreens for landscape purposes.
 18-24" \$ 7.50 3 -3½' \$13.00
 24-30" 9.00 3½-4' 15.00
 30-36" 11.00 4 -4½' 18.00
 4½-5' 21.00

Colorado Green Spruce--same as the Colorado Blue in shape and appearance, except for the bright green color.

24-30"	\$ 6.00	4-5'	\$15.00
30-36"	8.00	5-6'	20.00
3-4'	10.00		

Black Hills Spruce--a dark blue green colored spruce, with shorter needles and a few more branches making it look bushy and compact. A very popular spruce for home plantings. (Prices same as Colorado Green)

THE YEWS

A most beautiful evergreen used almost exclusively for shady places where it does exceedingly well and serves 'a purpose that no other evergreen will. It should be planted where the afternoon sun in the wintertime will not find it. The yews have a very dark green foliage, resembling the spruce needle in shape. Bright red berries add much to their beauty.

Yew, Upright--a pyramidal growing evergreen which can be sheared. Grows to six and seven feet in height, if not sheared to keep smaller.
 24-30" \$15.00
 30-36" 22.00

Yew, Dwarf--a low spreading evergreen, good for planting in groups or under windows. Grows to 2 feet in height and spreads to 3 and 4 feet wide.
 15-18" \$12.00
 18-24" 15.00

TREES FOR SHADE and ornamental use

Ash, Green--a very hardy tree, good in all types of soil, straight grower with a high degree of freedom from pests. Reasonably fast grower.

6-8'	\$ 2.00	1½-2'' dia.	\$6.50
8-10'	3.50	2 -2½'' dia.	8.50
1¼-1½'' dia.	\$5.00		

Birch, White Canoe--a good ornamental tree and good for shade, too. Makes a nice contrast with evergreens. Can be planted in clumps for a very pleasing effect.

5-6'	\$2.25	1¼-1½'' dia.	\$5.50
6-8'	3.50	1½-2'' dia.	7.00
8-10'	4.50		

Birch, Cutleaf Weeping--similar to white canoe birch with drooping or weeping branches. Very graceful.

6-8'	\$6.00	8-10'	\$7.00
------	--------	-------	--------

THE FLOWERING CRABS

Almey--a new variety of crab, very hardy in Minnesota. It has a white starred red flower followed by multitudes of large red fruits. Can be used as an accent point in a shrub planting or on the lawn as a specimen. Bears the first year.

3-4'	\$2.50	5-6'	\$4.00
4-5'	3.00	6-8'	5.50

Dolgo--a vigorous grower with a good shape, pink blooms and bright red fruit, which is good for jelly, eating or pickling.

5-6'	\$2.00	6-8'	\$3.00
------	--------	------	--------

Hopa Crab--probably the most talked of crab in this area. Lavender pink blossoms and an abundance of small brightly red fruit in fall.

5-6'	\$3.00	6-8'	\$4.00
------	--------	------	--------

Horsechestnut--a very attractive and distinctly different tree with lilac like blossoms of cream color in spring, and bearing large chestnuts in fall. Leaves are yellowish green color. The shape of the tree resembles the Maple.

1¼-1½'' dia.	\$ 8.50
1½-2'' dia.	10.50

Hackberry--a large growing, large topped, fairly fast growing tree, with leaves that resemble the elm. Very hardy in this area and very dependable.

6-8'	\$2.00	1¼-1½''	\$5.00
8-10'	3.50	1½-2''	6.50

THE MAPLES

Norway Maple--a very good, large growing shade tree, with a broad head and rich dark green leaves.

6-8'	\$4.75	8-10'	\$6.50
------	--------	-------	--------

Schwedlers Red Leaf Maple--a Norway Maple with reddish green leaves in spring, shading slightly greener in summer.

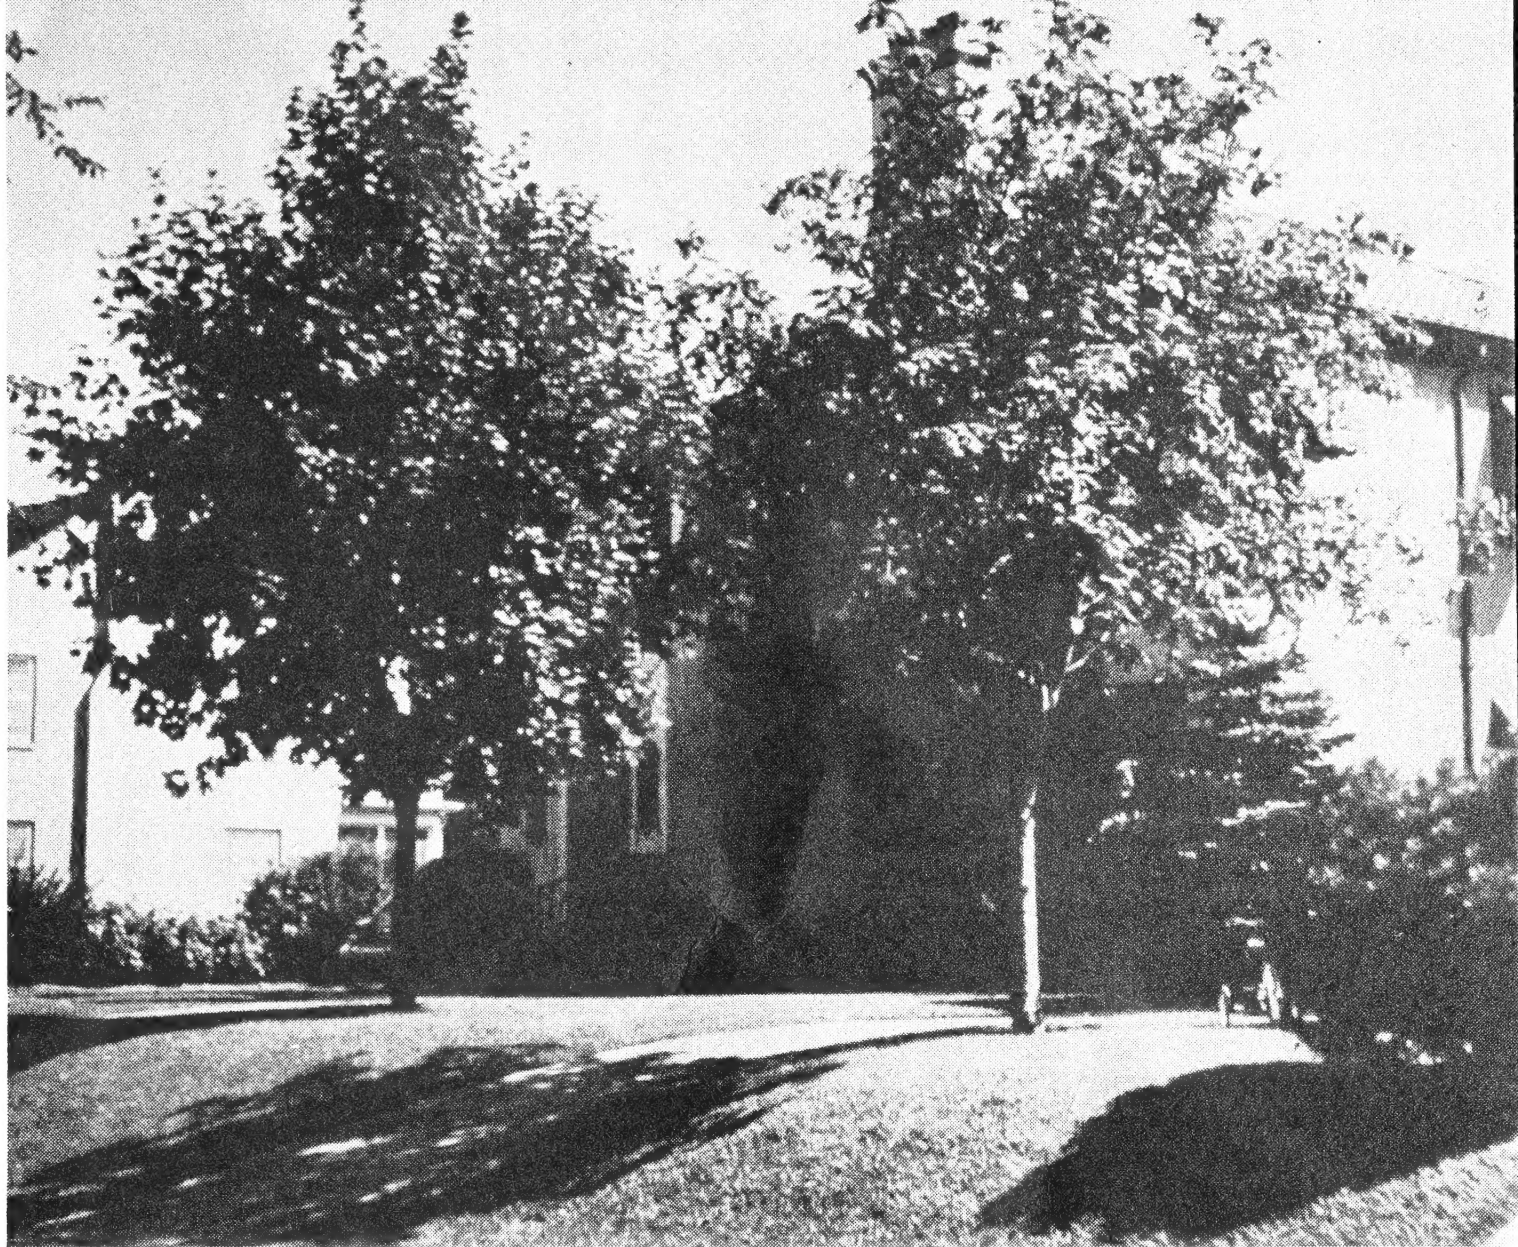

5-6'	\$5.00	6-8'	\$6.50
------	--------	------	--------

Silver or Soft Maple--one of the fastest growing of all the desirable shade trees, with good shape and a slightly silver cast to the green leaves.

6-8'	\$2.00	8-10'	\$3.50
1¼-1½'' dia.	\$5.00		

Sugar Maple--another good maple with good shape and hardiness. Turns to orangy-red color in fall. The best tree for fall color.

6-8'	\$4.75	1¼-1½'' dia.	\$9.00
8-10'	6.50		

Crimson King Maple--another Norway or Schwedlers Maple with darker reddish green color maintained throughout the growing season.

6-8' whips \$10.00

8-10' whips 12.00

Wiers Cutleaf Weeping Maple--similar to Silver Maple in color, but a more deeply cut leaf and weeping branches. Beautiful.

8-10' \$5.00 1¼-1½" \$7.00

American Elm--a very hardy and satisfactory shade tree. Large growing with wide spreading branches and bright green leaves. An old standby.

6-8' \$2.00 1½-2" \$ 6.50

8-10' 3.50 2 -2½" 8.50

1¼-1½" 5.00 2½-3" 12.50

Mountain Ash--a medium sized tree with umbels of cream colored blossoms in spring and orange colored berries in fall. The foliage has a

steel blue green color, different from most trees. A very good ornamental.

6-8' \$3.00 1¼-1½" \$5.00

8-10' 4.00

Bolleana Poplar--a tall, very narrow, growing ornamental tree used as border trees or as accent trees in shrub plantings. Fast growing with a silver colored under side to the leaf. A stately tree and longer lived and more satisfactory than the Lombardy.

6-8' \$2.25 8-10' \$3.00

Lombardy Poplar--grows just like the Bolleana in shape, but has a dark green leaf.

6-8' \$1.50 8-10' \$2.00

Wisconsin & Niobe Weeping Willow--both trees are good weeping trees. The Niobe has a golden color to the twigs, the Wisconsin a green.

6-8' \$2.75 8-10' \$4.00

ORNAMENTAL SHRUBS

Although this class of landscape material does lose its leaves in the winter, there is much interest in the color, texture, gracefulness of shape, and density of growth of the deciduous shrubs. One should not ignore them when landscaping in this area. And when they come to life in the spring, leaf out, bloom and bear fruit, they add great interest, beauty and style to the home planting.

Arrowwood--a large growing shrub, good in sun or partial shade. Has a dark green leaf with a sawtooth edge, clusters of white flowers followed by blue berries. Foliage turns reddish in fall. Hardy.

3-4' \$1.80 4-5' \$2.25

Barberry, Green--small shrub, green leaves turning red in fall and bearing red berries in profusion.

18-24" \$.85 2-3' \$1.25

Barberry, Red Leaf--maroon colored leaves all summer long. Dwarf in size and dense branching. A very good foundation planting shrub to mix with evergreens or other shrubs for color and contrast.

18-24" \$1.35 2-3' \$1.65

Buckthorn, Common--a green leaved shrub, medium-large, bearing attractive black berries in late summer. A very hardy shrub with a root system adapted for any soil.

2-3' \$.60 3-4' \$.90

4-5' 1.25

Buckthorn, Glossy Leaf--similar to the Common, except the leaves are glossy, giving a more ornamental appearance.

3-4' \$1.25 4-5' \$1.50

Cherry, Cistena--a very colorful and attractive maroon leaved shrub, large growing and compact. Good for contrast in shrub planting or around buildings where large shrubs can be used. Decorative throughout the season.

2-3' \$1.75 3-4' \$2.50

4-5' 3.00

Cotoneaster--a very useful, hardy and attractive shrub with gracefully arching branches, dense growth and rich green foliage. In the fall its reddish foliage and berries point up the beauty of the shrub planting.

18-24" \$.90 2-3' \$1.25

3-4' 1.75

Highbush Cranberry--a large growing shrub with a leaf like a Maple Tree, but thicker and dark green in color. Cream colored flowers in large clusters are followed by clusters of large red berries. The dark red foliage in fall is beautiful.

3-4' \$1.85

Alpine Current--a dense growing dwarf shrub with light green leaves. The silhouette, when the leaves are off in winter, gives an etching like effect against a light background. Very hardy.

15-18" \$1.00 18-24" \$1.35

2-3' 1.80

Dogwood, Golden--a large growing shrub with gold colored branches, green leaves and white flower clusters. A good shrub for winter color and very hardy.

3-4' \$1.25 4-5' \$1.50

Dogwood, Red Twig--similar to the Golden Dogwood, except for the branches, which are red instead of golden. These two shrubs make a very attractive contrast in a shrub planting.

3-4' \$1.25 4-5' \$1.50

Variegated Dogwood--This shrub has very attractive green leaves bordered in white and makes a very effective shrub for foundation or border planting, with other shrubs, evergreens, or by itself. Not as large as the Golden and Red Twig Dogwood, but has the attractive red twig of the latter.

2-3' \$2.00 3-4' \$2.25

4-5' 2.75

Elder, Golden--a large rapid growing shrub, with gold green leaves, white flower clusters, followed by black berries. Should be cut back each year severely to maintain symmetry and beauty.

3-4' \$1.25

Euonymus, Winged Burning Bush--a very attractive shrub with unusual bark formation. The knife like ridges which form on the bark, giving the branches a square effect, are most interesting and unusual. The orange blossoms followed by orange colored fruit and again the fiery red of the foliage in the fall, make it a most beautiful and useful shrub.

2-3' \$2.75

Euonymus, Burning Bush--similar to the Winged Euonymus, except that the twigs are round.

3-4' \$1.80

Honeysuckle Zabelli--a new improved form of the honeysuckle with darker green leaves and red blossoms. The shrub grows large and bears red berries in summer and fall.

2-3' \$1.00, 3-4' \$1.25, 4-5' \$1.50

Hydrangea, Paniculata Grandiflora--a medium sized shrub with thick green leaves and large lilac like blooms starting green, then turning to white and then to pink. Very colorful in late summer.

2-3' \$1.60 3-4' \$2.00

Hydrangea, Arborescens Grandiflora--similar to the Hydrangea, P.G. except that it blossoms white and has a round snowball type flower, rather than lilac shape. It is one of the most shade tolerant of blooming shrubs.

2-3' \$1.60

Hawthorne, Crusgalli--a very beautifully foliated shrub or small tree, with thorns and a grey bark. The leaves are a very dark rich green. The blossoms are white followed by bright red apples about the size of a dime. The fall color, red, is most exciting.

4-5' \$6.75

Lilac, Common White and Common Purple--the old fashioned lilac with white or purple blossoms. Very fragrant and good for cutting. Large growing.

2-3' \$1.35 3-4' \$1.65

Lilac, Persian--a more lacy looking bush than the Common Lilac, with smaller leaves and a lighter filmy blossom of lavender purple. Especially good for shrub border or informal hedge. Medium growing and bushy.

2-3' \$1.35 3-4' \$1.65

Lilac, French--similar to Common Lilac, but perhaps not quite as bushy. Leaves are dark and heavy. The following varieties are offered: Chas X, dark reddish purple - single blossom. Pres. Grevy, pale blue - double blossom. Michael Buchner, Lilac color - double blossom. Pres. Lincoln, wedgewood blue - single blossom. Alphonse La Valle - blue shading to lavender - double blossom.

3-4' \$2.75

Maple, Tartarian--a large growing shrub, with a small leaf shaped like a maple leaf, light brown branches and bushy growth. The brilliant red fall color, strikes a cheerful note in September and October.

3-4' \$1.65 4-5' \$2.25

Olive, Russian--a very large shrub or small tree, whose chief claim to distinction is the silver color of its foliage. Because of its color, it is very useful in the attempt to get contrast and variety in the home planting.

3-4' \$1.25 4-5' \$1.50

THE ORNAMENTAL SHRUBS (Cont.)

Plum, Double Flowering--a large growing shrub especially appreciated for its very double pink blossoms. This shrub is commonly mistaken for Flowering Almond, but is far superior in color, hardiness and shrub form. It blossoms before any other shrub in spring, in fact before it leafs out.
2-3' \$1.75, 3-4' \$2.50, 4-5' \$3.00

Pussy Willow--this shrub is a large growing bushy type of small tree with catkins larger by several times than the native Pussy Willow. It makes a good plant for screen purposes where the ground is low. The branches offer a wide variety of interesting possibilities for floral and interior decoration.
5-6' \$2.50

Rose, Hansa--one of the hardiest of the bush type roses. This rose blossoms heavily with large red flowers, very double, and makes a very good shrub of medium height. The foliage is a thick waxey green, deeply veined, which gives it a rich appearance. The red seed pods which follow the blossoms, add to the attractiveness of this very useful shrub.
2-3' \$1.85

Rose, Grootendorst--not quite as hardy as the Hansa, this rose, nevertheless, has a very important place in the bush rose family in this area because it blooms profusely all summer, in clusters of small double blossoms. Occasionally the top is killed back by Minnesota winters, but it comes back in the spring. Blooming on new wood, it never misses a blooming season.
2-3' \$1.85

Rose, Harrison Yellow--another bush type rose, which is similar to the Grootendorst and Hansa in size and shape, but the yellow blossoms provide color much needed in the shrub line.
2-3' \$1.85

Snowberry, Coral and White--this shrub, dwarf in size, is a fine textured, spreading, and hardy shrub which comes in either white or coral colored blossoms, followed by small berries of the same color as the blossom.
2-3' \$1.00

Spirea, Anthony Waterer--a very dwarf shrub, bushy and compact. The dark red blossoms, in clusters at the upper end of each shoot, are very colorful and are useful in group plantings of mixed evergreens and shrubs.
18-24" \$1.25

Spirea, Arguta--a medium small shrub with light green feathery foliage and an abundance of white blooms. When in full bloom this shrub resembles a snowbank.
2-3' \$1.20

Spirea, Van Houtte--the old standby, Bridlewreath, is well known and perhaps too much misused. However, it can be used to good advantage in combination with other shrubs.
2-3' \$.85 3-4' \$1.10

Spirea, Froebeli--resembles the Spirea Anthony Water, except for a lighter rose colored bloom and a slightly larger size shrub. Very hardy.
2-3' \$1.25

Spirea, Golden Ninbark--a medium large shrub with a yellowish green leaf, creamy white clusters of flowers followed by brown fruit in fall. A very attractive, bushy, well shaped shrub.
3-4' \$1.55

Spirea, Dwarf Ninbark--a dwarf, bushy, compact shrub, with white blossoms.
2-3' \$1.25 3-4' \$1.50

Syringa, Dwarf Golden--gold green leaves and compact bushy form makes this small shrub one of the most asked about shrubs in the nursery. Excellent for foundation plantings, for color and variety.
12-18" \$1.75 18-24" \$2.25
2-3' 3.00

Syringa, Lemoine--another dwarf shrub, which blossoms white and grows dense and regular in shape. The foliage is green and very neat.
2-3' \$1.25

Syringa, Fragrant--a large shrub with very fragrant white blossoms with yellow centers. Blossoms in mid-summer.
3-4' \$1.35

Syringa, Minnesota Snowflake--this new very double syringa newly introduced by a Minnesota grower, is gaining wide popularity for its large heavy blossoms and profuse blooming. Very hardy.
2-3' \$1.50 3-4' \$2.00

Wayfaring Tree--a large growing velvety gray-green foliage with snowfall like white blooms, followed by blue black berries. A distinctly different shrub in appearance. This shrub offers an opportunity to vary the texture in the shrub planting.
3-4' \$1.85

Weigela, Bristol, Ruby--a gracefully branched shrub with more than average attractiveness of foliage and beautiful ruby red bell shaped flowers born in profusion.
3-4' \$2.25

HEDGING

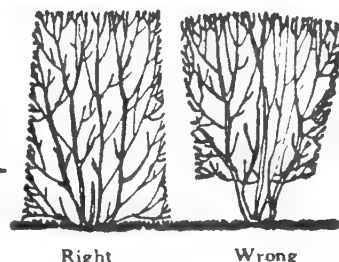

Hedges like fences are only as effective as their continuity. To be continuous, and to stay that way, they must be made up of very hardy plants. Especially is this true in this area where even some of the hardiest of shrubs sometimes sustain winter injury. With this in mind we recommend the following for formal clipped or sheared hedges:

Buckthorn, Common 2-3' 45¢, 3-4' 50¢
 Cotoneaster 18-24" 55¢, 2-3' 70¢, 3-4' 90¢
 Alpine Current 12-18" 60¢
 Honeysuckle Zabelli 2-3' 60¢, 3-4' 70¢

(Above prices apply only to orders of 25 or more)

The Honeysuckle Zabelli is recommended for hedges from 6-8 feet high, the Cotoneaster and Buckthorn from 4-6 feet high and the Alpine Current for 4 feet or less. All should be planted in a trench one foot apart. The Honeysuckle can be planted from one to three feet apart. However, the farther apart they are planted the longer it will take to make a thick hedge.

To be successful in growing a hedge which is thick down to the ground, trimming should be done so that the hedge is narrower at the top than at the bottom. This will allow more light to strike the trunk near the bottom and induce the formation of more branching, which will result in a thick hedge right down to the ground.

How to Trim Hedges

PERENNIALS, BULBS AND LILIES

There are hundreds of perennials sold and used in this area but we feel that because of climate and shortness of season, many of them are not practical for use here. Also, many of them are not worth using space for. Following is a list of the perennials we feel will give the greatest satisfaction. Our perennials are sturdy field grown plants.

- Aquiligia, Columbine**--sometimes called honeysuckle, this perennial blooms from June thru August. Offered in yellow, blue, white or mixed hybrids. Grows tall and is good for cutting. 50¢
- Artemesia, Silver King**--a silver foliaged tall plant for contrast in the garden or bouquets. 50¢
- Aster, Harrisons Pink**--a tall free blooming pink, good for cutting. Fall blooming. 60¢
- Campanula, Canterbury Bell**--a medium sized biennial, bearing an abundance of large pink, white or blue bell shaped flowers in June and July. 50¢
- Campanula, Carpathian Harebell**--a dwarf compact plant bearing blue bell-shaped flowers in July and August. Border plant. 50¢
- Carnation**--a spicy fragrance characterizes this low growing border plant of mixed colors. Very good for cutting. 50¢
- Chrysanthemums**--the following varieties are offered for both cutting and the flower border. 60¢
- Avalanche — white
 - Bronze Gold — bronze-gold
 - Butterball — yellow
 - Chippewa — purple
 - Courageous — ruby red
 - Maroon n' Gold — maroon and gold
 - Dr. Longley — pink
 - Stittaum Rose — rose
 - Tangerine — orange
- Coreopsis**--daisy like flowers of golden yellow, medium in height, blooming from June to Sept. 50¢
- Dahlias**--our tubers are strong with good necks and crowns, tall growing. 50¢
- Avalon — Canary yellow
 - Gallant Fox — crimson red
 - Jane Cowl — bronzy buff & gold
 - Jean Kerr — a good white
- Delphinium**--a good garden perennial, which blooms profusely. Tall growing and very good for cutting. Offered in the following varieties and colors: 60¢
- Belladonna — sky blue
 - Black Knight — dark purple with white eye
 - Sir Galahad — White
 - Pacific Hybrids — mixed
- Dictamnus, Gas Plant**--flowers borne on spikes about 18" high in June and July. Comes in pink and white. 85¢
- Ferns**--beautifully foliaged plants, good for shady places. 60¢
- Funkia Caerulea, Blue Plantain Lilly**--low bushy attractive green leaved plant with blue flowers on spikes. Also good for shade. 50¢
- Funkia Subcordata, White Plantain Lilly**--similar to blue, but larger leaves, lighter colored green with larger white flowers. 85¢
- Funkia Variegated**--similar to blue, but with green and white leaves. Very showy and good in shade. 60¢
- Gaillardia Burgundy**--the reddest of the Gaillardias. Large daisy like flower on stems about 20" high, low bushy plant slightly grey in color. 50¢
- Gladiola**--bulbs of top size, late varieties at popular prices. Nothing surpasses the Glad. for cutting or beauty in the garden. Offered in following colors: Dark red, blue, rose red, pink, lavender, yellow, purple, white.
12 for \$1.00, 50 for \$3.90,
100 for \$7.00

Salvia, Rose--a tall growing perennial bearing spikes of rose colored blooms. 50¢

Sedum, Brilliant--red flowered, low creeping plant especially good for rock gardens or on banks. 50¢

Sedum, Acre--similar to Brilliant but with yellow flowers. 50¢

Sedum, Spectabilis--red blossoming, medium height plant with thick light green leaves. An individualist in its garden appearance. 50¢

Sedum, Variegated--similar to the Spectabilis but with variegated leaves. 50¢

Shasta Daisy, Alaska--a large white daisy, large flowered and dependable with dark green foliage. 50¢

Trollius, Golden Wave--a buttercup-like bloom. The showy green foliage makes this a popular garden choice. 70¢

Trollius, Orange Prince--similar to Golden Wave but an orange blossom. 70¢

Veronica, Blue Spire--a medium height perennial, neat in appearance, with an abundance of slender stalks topped by spikes of bright blue flowers. 50¢

FRUITS

APPLES

We have most of the varieties of apple trees that are recommended for this area. However, we recommend the use of the following in most instances:

→ **Beacon--**a beacon red apple, good for eating, maturing early like the old Duchess but a better keeper and finer grained.

→ **Fireside--**a new, distinctively different flavored apple. Many say there is no better flavor. A good keeper and cooker as well.

→ **Haralson--**a hard, crisp, juicy, late keeping and cooking apple. A good commercial apple. The best winter apple of them all.

→ **Minjon--**a hard "Minnesota Jonathan", dark red. Medium-early maturity and good keeping qualities. Bears regularly and tastes good.

→ **N. W. Greening--**king of the cooking and baking apples and a good keeper. Old-fashioned but good.

→ **Prairie Spy--**a heavy bearer and a good keeper. Late but worth waiting for. Very hardy.

→ **Lakeland--**one of the latest introductions of the U. of Minn., this apple is supposed to replace the Wealthy.

→ **Whitney--**a large crab good for eating and pickling. The tree is outstanding in shape and appearance and the fruit delicious.

→ **Dolgo--**a small crab with good color and jelly or pickling qualities. This tree is used ornamentally for both its blossom and fruit. The tree shapes up well also.

All above apple trees 5-6' \$2.00
6-8' 3.00

PLUMS

→ **Plum, Superior--**the best plum developed by the Minnesota Experimental Station. Large size, yellow flesh and of good quality. Truly "Superior".

→ **Plum, Red Glow--**also a good red plum with good flavor and color.

Plums 5-6' \$2.00, 6-8' \$2.50

MISCELLANEOUS

→ **Cherry Plums, Sapa--**dark purple 5-6' \$2.00

→ **Grapes--**Blue Jay, Red Amber, Concord, Moonbeam. Potted \$1.25

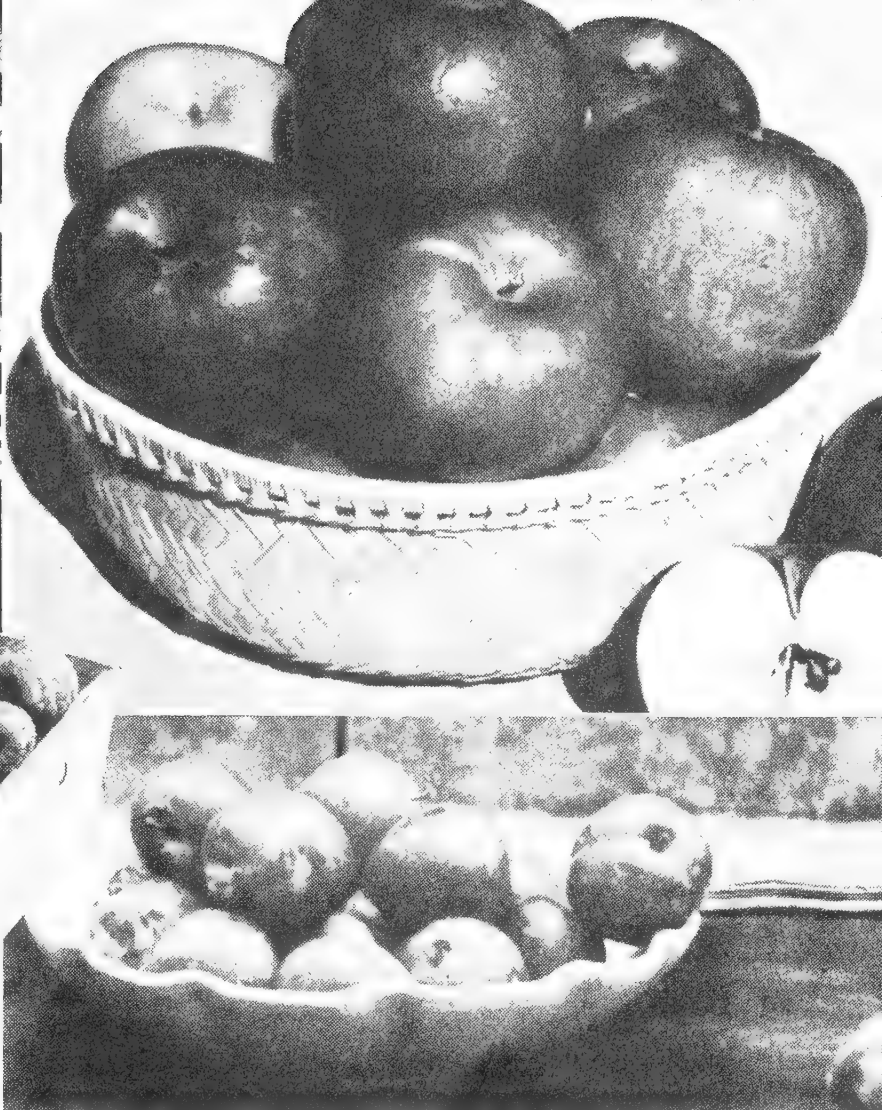

→ **Currant, Red Lake--**2-year, heavy \$.70, 5 for \$3.00.

→ **Gooseberries--**2-year heavy \$.90, 5 for \$4.00.

Rhubarb--Chipmans Red #1 \$.85, 5 for \$3.50

Raspberries--Chief, Latham, Cumberland
25 for \$ 4.50
50 for 8.50
100 for 14.00

Asparagus--2-year heavy
25 for \$ 1.95
50 for 3.00
100 for 4.75

STRAWBERRIES

Everbearing:

- ✓ Evermore, Brunes Marvel, Streamliner and Superfection. 25 — \$1.80, 50 — \$3.00, 100 — \$4.75.
- ✓ Wayzata 25 — \$3.00, 50 — \$5.50, 100 — \$10.00.
- ✓ Red Rich 25 — \$5.00, 50 — \$8.50, 100 — \$15.00.

June Bearing:

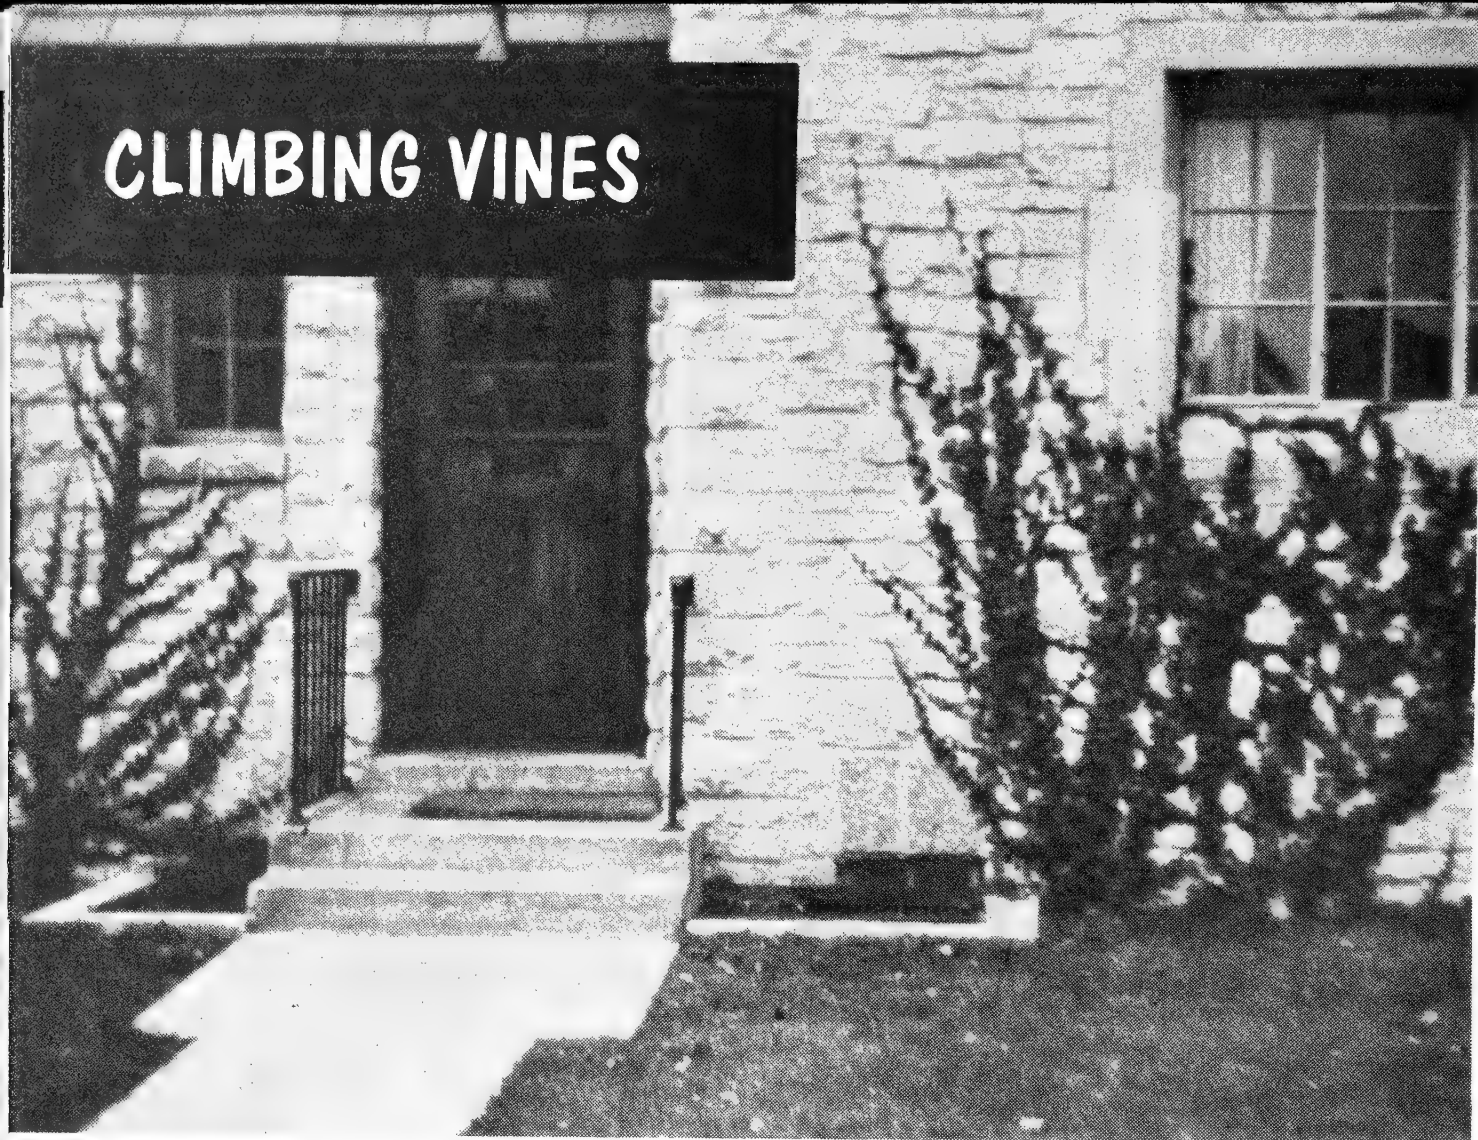

- ✓ Dunlap, Premier, Robinson, Arrowhead. 25 — \$1.10, 50 — \$1.80, 100 — \$2.90
- Strawberry Pyramids 5' \$7.50 (prepaid)
6' 9.50

(Orders for strawberries must be accompanied by full payment. No COD's)

Every home can enjoy fresh strawberries with a strawberry pyramid. Easy to weed, water and protect from birds.

CLIMBING VINES

Climbing vines, if properly used and cared for, and supported by a sturdy looking and nicely designed trellis, can add far more to the beauty of the home grounds than the cost would indicate.

We pot all our vines, which insures them a better start and produces more satisfactory results. However, potted plants are difficult to ship and should be picked up at the nursery or included in delivery orders.

Bittersweet--a hardy, strong growing vine with attractive glossy leaves. Yellow flowers are followed by colorful orange-red berries in fall. \$1.50

Clematis Henryi--a large white flower characterizes this most satisfactory vine for a dark background. \$1.75

Clematis Jackmani--the purple blossoms in profusion make this the most asked-for climbing vine. \$1.75

Clematis Andre--similar to the other varieties but with reddish purple blooms. \$1.75

Honeysuckle Heckrotti--trumpet shaped blooms of flame red and golden yellow from June to frost. Delightfully fragrant and very hardy. \$1.50.

Ivy, Boston--the much talked about glossy and small leaved ivy which grows in sun or shade and clings closely, without support of trellis, to brick or stone wall and forms a tracery of green. A lot of landscaping for \$1.75.

Trumpet Vine--3-inch orange trumpets blooming in August. Fancy, deeply cut leaves. \$1.75

ROSES

Following you will find five classes or groups of blossoming roses: the Hybrid Teas, the Brownell Sub-Zeros, the Floribundas, the Climbers, and the Tree Roses. All roses are potted to give greater satisfaction and results. When you buy a potted rose, it is already started and there is no chance of losing it. Also, it has a healthier start and will produce a greater abundance of blooms the first year.

However, being potted, shipping of such roses is more difficult and expensive. If at all possible, we urge you to stop in and choose your potted roses yourself. You will enjoy browsing around the nursery and you will be happy with the results you get with the potted roses you buy.

Roses marked with an asterisk are patented and sell for \$2.50. All others are \$2.00 except the tree roses, which are marked individually.

Hybrid Teas--everblooming, large double blossoms.

- *Sutter's Gold — yellow and orange-red.
- *Tallyho — pink and red.
- President Hoover — pink, red and yellow.
- Picture — pink and salmon.
- *Crimson Glory — crimson.
- *Charlotte Armstrong — red.
- Etoile de Holland — red.
- Christopher Stone — scarlet.
- *Nocturne — cardinal red.
- Pink Radiance — pink.
- *Peace — yellow and cream.
- McGredy's Yellow — lemon yellow.
- Souer Therese — rich yellow.
- *Diamond Jubilee — buff, orange and yellow.
- *Santa Anita — peach.
- *Sleigh Bells — white with primrose.
- F. K. Drushki — white.

Climbers

- *Golden Glow — spectrum yellow
- *Break O' Day climber — orange-apricot.
- Paul's Scarlet.
- *New Dawn — pink.
- *White Dawn — white.

Sub-Zeros--a new strain of slightly hardier hybrid tea roses.

- *Curly Pink.
- *King Boreas — lemon yellow.
- *Lily Pons — white and yellow.
- *Pink Princess — deep pink.
- *Shades of Autumn—red and yellow.
- *V for Victory — yellow.
- *Break O' Day — orange apricot.

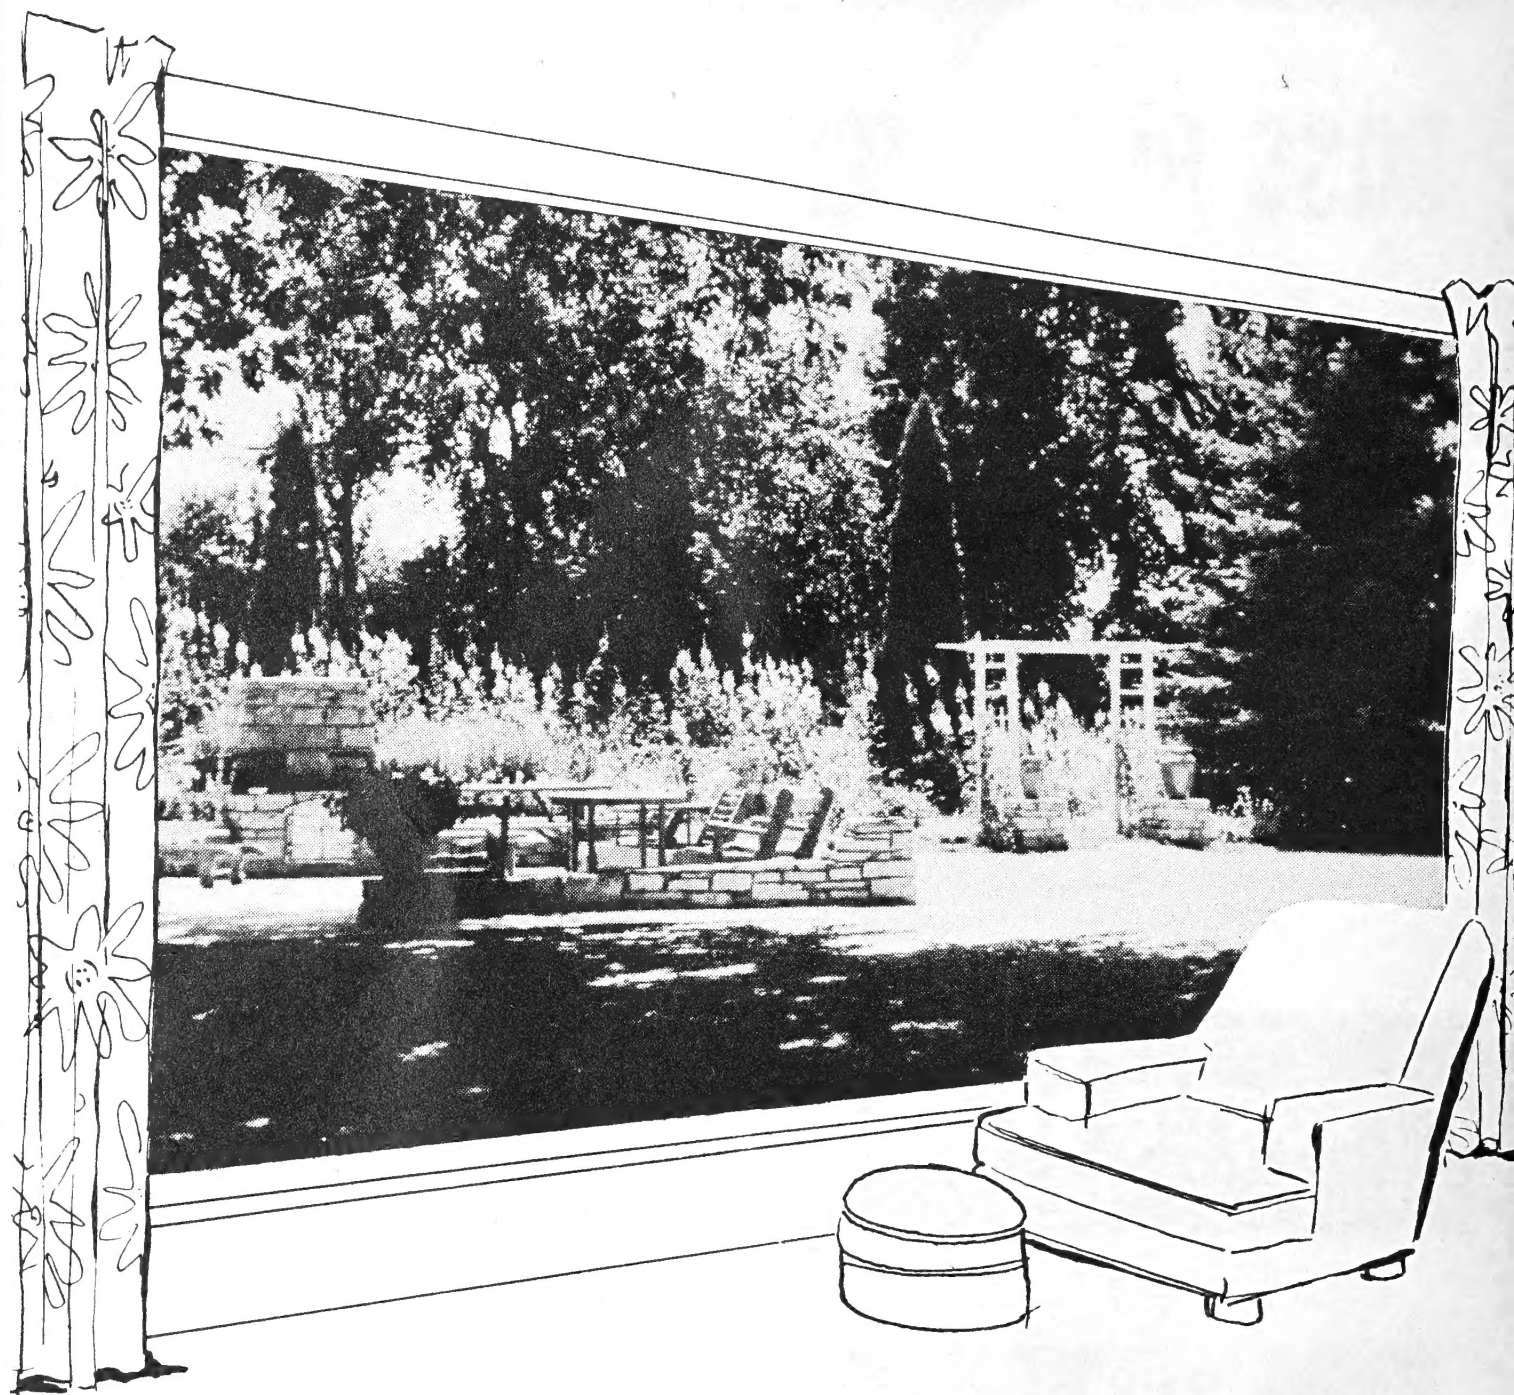

Floribundas--small sized bushes bearing a continuous abundance of clustering blooms.

- Else Paulsen — rose pink.
- *Fashion — coral and gold.
- *Pinocchio Red.
- *Pinocchio Yellow.
- *Worlds Fair — black scarlet.

Tree Roses

- Christopher Stone — Hybrid Tea, scarlet. \$5.00
- Fashion — Floribunda, coral and gold. \$6.00
- Peace — Hybrid Tea, yellow and cream. \$7.50
- Talisman — Hybrid Tea, yellow and coppered. \$6.50

PLANT A "PICTURE" FOR YOUR PICTURE WINDOW

YOUR PICTURE WINDOW, unlike a wall, was designed to connect two areas. It is an opening and an invitation. It brings the outside in!

Unfortunately, too many picture windows look out upon an unattractive scene, and thus fail in their purpose. But in most of these cases, a landscape planting will hide the unsightly view and create an outdoor setting which is beautiful and inviting the year 'round. With hedges and shrubs to screen the view from the street and to break the wind, you can create an outdoor living room, with your picture window as the connecting link.

Let Homedale designers show you what can be done to make the most of your picture window. If you live in the city, call us for an appointment. If you live in the country, stop in, the next time you're in Minneapolis.

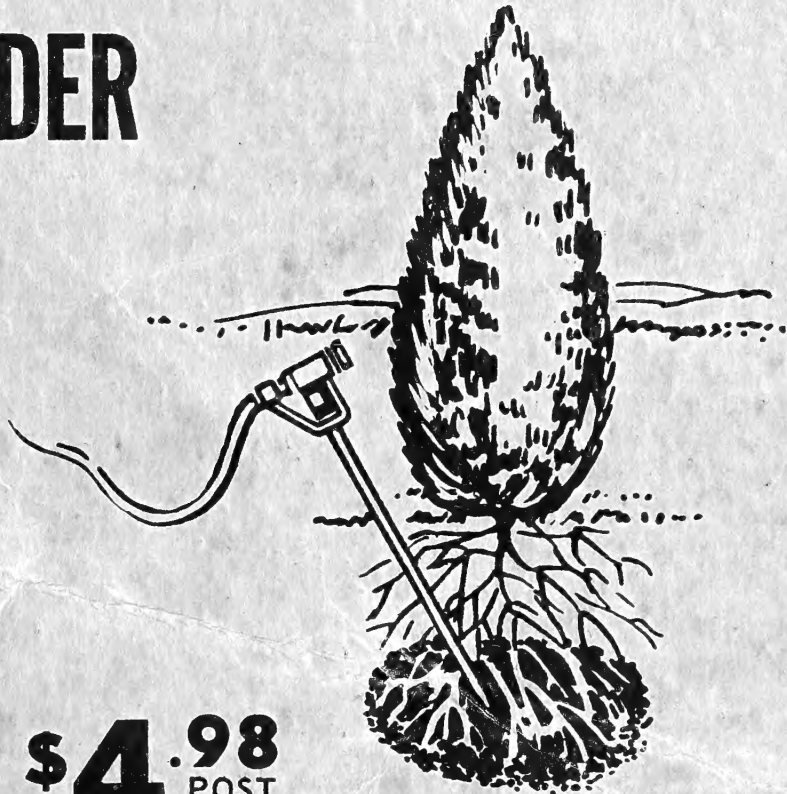

SPECIALY-RECOMMENDED ITEMS FROM THE HOMEDALE GARDEN STORE

ROSS ROOT FEEDER

Ross Foot Feeder puts plant food and water directly to the roots. Produces more vigorous growth. Needed all season, from early spring as a quick booster to late fall to prevent winter damage.

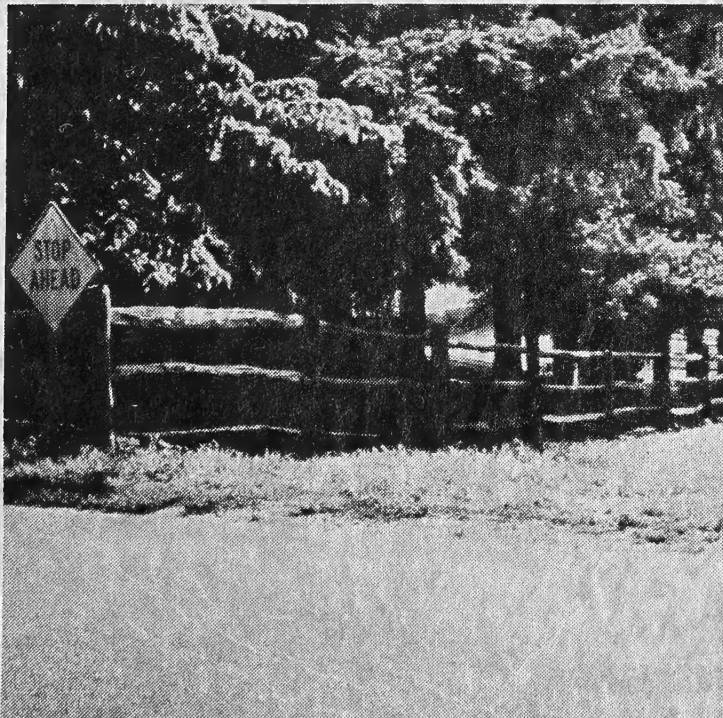

Simple to use, saves water, time and labor. Just place cartridge in the chamber, attach to hose, push it into the ground to desired depth. Turn on water, and plant food in proper solution goes DOWN AMONG THE ROOTS WHERE IT IS NEEDED.

Keep a supply of cartridges on hand.

\$4.98
POST
PAID

RUSTIC SPLIT-RAIL FENCE

Give your home that "estate" look! Made of genuine West Virginia Chestnut. Rugged and long-lived. Posts are treated for long life and drilled for easy insertion of the sturdy split rails. Just three or four sections will make a partial fence in your back yard on which to train grape vines or rambler roses. Makes an unusual background for a flower border.

10-foot section (erect it yourself) \$7.00
10-foot section (installed) \$9.50

A WHOLE APPLE ORCHARD ON ONE TREE!

REDWELL- An annual bearer.
Good keeper. Mild flavor.

VICTORY- An improved
McIntosh. Better color and flavor.

WEALTHY- The old favorite
fall apple. Bears heavily.

BEACON- Early red apple.
Fine quality and flavor.

FIRESIDE- Winter apple.
Tastier than Delicious.

MANTET- Extremely early
red apple. Fine quality.

N.W. GREENING- Popular
winter apple. Best for pies.

PRAIRIE SPY- Jumbo-size fruit.
Extra-long keeper. Bears young.

Pick up to a bushel of each of 8 varieties from one mature tree!

We are featuring something this year that is offered by no other nursery. We have a limited supply of specially-grown apple trees having grafts of 8 Minnesota-hardy varieties all on one tree. While grafted trees are not unusual, none have heretofore been offered with all of the grafted varieties hardy for this severe climate.

These trees will each bear early,

medium and late apples, including eating and cooking varieties. Each variety blooms at a different time, giving a greater spread to the apple blossom season.

The average home, with its limited amount of space, is an ideal place for this One-Tree orchard. You pick many different kinds of fruit without using space for many trees.

These trees are 5 to 7 feet tall and will be sold for only \$8.75 each. We also have trees with 7, 6, and 5 varieties on each, priced at \$7.25, \$6.75 and \$6.25 respectively. The varieties on these trees are from those named above. Note that many are new improved varieties, fully tested and destined to become extremely popular.

NOTE: These trees, while unusual, are not "novelties". We stand behind these trees with our regular guarantee (see page 3) and we promise you that our One-Tree orchard will grow and bear as we say.

(When ordering by mail, please add \$1.00 per tree for packing. We will ship express charges collect.)
